READY YOUR HEADPHONES, JIMMY, IT'S GOING TO BE A WILD RIDE.

Special thanks to Tara Rawana for first teaching me how to use my Nikon D5100; to all my teachers along the way; and to all the friends that let me take shots of them or drag them on photo-hunts.

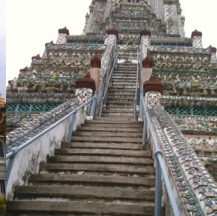

While in it, we should each take a moment to contemplate it.
*Through our own eyes; our own senses; our own unique
Perspectives & Beliefs.*

All *Life* is a discovery. It's an Adventure.
& it beckons to be explored.

A person is shown in silhouette on the left side of the frame, standing in a dense forest. Sunlight filters through the trees, creating a dappled light effect on the ground and foliage. The overall mood is serene and contemplative. The text is positioned on the right side of the image, overlaid on the forest background.

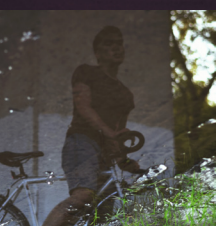

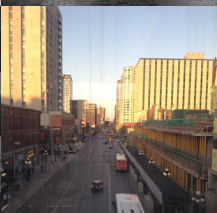

Only by accessing the true consciousness that we are all *One*
can we become sentient to the idea that all life is simply meant to be lived.
To be laughed at. To be loved with. & to be shared.

*& by growing externally, so too can we hope to grow Internally.
An equal combination of both the body & the mind.*

*Because in the end, when we each look back, we will have
discovered that all was Real the whole time.
That all manner of truth exists, & that every aspect of it can be
found from within.*

*Never stop searching.
Never stop exploring.
Never stop seeking.
& above all,
Never stop appreciating the one thing that we all share,
Life.*
